## Software Engineer

+91 8905454863 @ adityajhajee7889@gmail.com [linkedin.com/in/aditya-jha05](#)  
[github.com/adityajha28](#) Delhi, India

## SKILLS

Java · HTML · CSS · JavaScript · ReactJS ·

Firebase · MySQL · MongoDB · SQL

VirtualBox · Linux · Git · GitHub · AWS ·

Docker · Terraform · CI/CD · SonarQube ·

New Relic · ArgoCD

Project Management · Project documentation ·

Database Management · Cloud Computing ·

Troubleshooting and resolution

## EDUCATION

### Bachelor of Technology

Truba Institute of Engineering & Information Technology

11/2020 - 06/2024

GPA | 8.11 / 10

## CERTIFICATIONS

Aviatrix Certified Engineer  
MulticloudNetwork Associate  
Certification

HackerRank Java Certification

HackerRank Problem Solving  
Certification

## INTERESTS

Quantitative Aptitude

Movies and Series

Software Exploration

## EXPERIENCE

### Software Engineer

08/2025 - Present

#### ACSM & Co.

Remote

##### Tasks

- Designed, developed, and deployed the official website for **ACSM & Co. (CA firm)** from scratch, featuring comprehensive sections for **Services, Clients, Team, Careers, and Company Overview** to deliver a complete business representation. [www.acsmco.com](#)
- Handled full deployment on **AWS ECS Fargate** using **Application Load Balancer, ECR, VPC, Secrets Manager, and AWS Certificate Manager**, with DNS records managed via **Cloudflare**.
- Responsible for ongoing AWS and website maintenance, with upcoming updates including a live Tax and Finance Blog, and an integrated AI-powered Chatbot.

### DevOps Intern

10/2024 - 03/2025

#### SmartWorks Coworking Spaces Limited

Gurugram, Haryana

##### Tasks

- Orchestrated and managed AWS services including **ECS (Fargate), Lambda, VPC, DocumentDB, DynamoDB, Load Balancer, CodePipeline, CodeCommit, and Secrets Manager** to ensure secure, scalable, and efficient application deployments across cloud environments.
- Integrated **SonarQube** for continuous code quality checks, and **New Relic** for application performance monitoring within **CI/CD** pipelines, enhancing deployment reliability.
- Containerized applications using **Docker** to standardize environments, troubleshoot cloud services, and optimize **Amazon ECS** costs by analyzing CPU and memory utilization.

### Full Stack Developer Intern

08/2024 - 09/2024

#### Devangles Private Limited

Ahmedabad, Gujarat

##### Tasks

- Contributed to developing a project management tool by gathering requirements and documenting the proposal.
- Implemented **Firebase** for real-time data management, and used **ArgoCD** to streamline application deployment.
- Integrated **Google Workspace** with **Okta** for seamless user authentication and access management.

### DevOps Intern

01/2024 - 04/2024

#### Promact Infotech Private Limited

Vadodara, Gujarat

##### Tasks

- Gained hands-on experience with **Linux, Git, AWS, Docker, Terraform, and CI/CD** tools, contributing to development and deployment processes.
- Collaborated in deploying key projects, like the **Customer Success Platform** and **Hotel Management AI Agent**.
- Developed reusable **Terraform modules** for provisioning AWS infrastructure, streamlining deployment workflows.

## PROJECTS

### Filmy Buzz

- Developed **Filmy Buzz**, a movie rating and trailer website using **ReactJS** and **TMDB API**, featuring real-time movie data, trailers, and an intuitive **ReactJS + CSS** interface for a smooth user experience. [Link](#)

### Deployment of Customer Success Platform

- Deployed the **Customer Success Platform (ReactJS & Node.js)** by containerizing applications with Docker, pushing images to Amazon ECR, and deploying services on ECS (EC2) using secure task definitions.
- Automated **CI/CD pipelines with GitHub Actions** to streamline frontend and backend deployments, optimizing AWS configurations for scalability, high availability, and performance while reducing manual intervention. [Link](#)
